Who we are:

County Medical Transport, Inc. is a locally owned and operated commercial ambulance service. We have been in business in Washington County since 1982 and are heavily invested in the community we serve. The company was started by Robert and Shirley Harsh with one ambulance and has now grown to 10 ambulances with 2 advanced life support units. We operate 24 hours a day 7 days a week to provide ambulance service to the citizens of the community we serve. Currently operated by Bob and Shirley's sons Bobby and Jim Harsh the business continues to grow. Jim and Bobby are the second generation operators of the business. Jimmy and Bobby bring to the company a combined 65 years of emergency medical service experience. They both retired in 2012 from the Maryland State Police Aviation Command after 22 years, where they had a very rewarding careers as Maryland State Trooper/Flight Paramedics transporting critically ill and injured patients from across the State of Maryland and surrounding areas. They both are intimately involved in the daily operations of the business to ensure that the ambulance crews have the best possible direction and over site during daily operations.

Services we can provide:

County Medical Transport, Inc. will work with Western Maryland Hospital Center to provide all facets of ambulance transport in a cost effective manner that will save money. We accept most insurances and have our own in house billing specialist's that will bill patient's insurance for all covered transports first. We realize that patient and nursing staff needs are the most important aspects of long term health care. We want to be your one stop shop for your ambulance needs. To that end County Medical Transport will strive to accommodate the patients and staff of the Western Maryland Hospital Center in any way possible.

Emergent or Non-emergent ambulance transport to include:

Local and long distance ambulance transportation

Advanced Life Support (ALS) or Basic Life Support (BLS) based on patient needs

Highly trained personnel- Emergency Medical Technician (EMT) or Paramedic (Nationally Registered) with additional certifications include:

ACLS- Advanced Cardiac Life Support

PALS- Pediatric Advanced Life Support

PHTLS- Pre Hospital Trauma Life Support

CPR

State of the art Maryland Commercial Ambulance Licensed ambulances that includes GPS vehicle tracking

County Medical Transport, Inc.

15852 Falling Waters Road
Williamsport, MD 21795

301-582-6131
Fax 301-223-7470

All drivers are EVOC certified (Emergency Vehicle Operator Certification)

We also realize that when a patient needs transportation to the Emergency Department the nurse caring for the patient may have limited time on her hands to answer a seemingly endless amount of questions. We have developed a streamlined dispatch process for handling those calls. Our dispatchers will provide an accurate ETA to the nursing staff to allow them make the best possible patient care transport decisions.

Please feel free to contact us if you have any further questions.
